

# **Greek lithium solar container outdoor power high temperature environment**

## Overview

---

What is a lithium battery energy storage system?

**Energy Storage System** A sophisticated lithium battery energy storage system with an expandable range of 100-500kWh can accommodate excess solar power for stable supply during night hours or cloudy conditions. Inverter.

What is a populated 20ft NWI liquid-cooling energy storage container?

**\*Specification of Battery Rack** The populated 20ft NWI liquid-cooling energy storage container is an integrated high energy density system, which consists of battery rack system (280Ah LFP cell), BMS (battery management system), FSS (fire suppression system), thermal management system and auxiliary distribution system.

What is a mobile solar PV container?

**High-efficiency Mobile Solar PV Container** with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.
