

# **Grid-connected subsidies for household solar systems**

## Overview

---

What is a solar panel government subsidy?

A solar panel government subsidy is like a financial boost from the government to help you afford solar panels. These subsidies, which may include tax credits, rebates, or grants, aim to make renewable energy more accessible to homeowners and businesses.

Can I get a solar panel subsidy in India?

With the PM Surya Ghar: Muft Bijli Yojana, eligible households in India can now receive a solar panel subsidy of up to ₹78,000 on installing grid-connected rooftop solar systems. In this guide, we break down everything you need to know — from eligibility and system selection to the application process and other critical details.

Are on-grid solar systems eligible for subsidies?

On-grid systems are eligible for central and state-level subsidies under India's rooftop solar programs. Homeowners can receive up to 40% subsidy on system costs depending on the installation size and location, as per MNRE guidelines. These incentives reduce upfront costs and improve return on investment.

What is a rooftop solar subsidy scheme in India?

The rooftop solar subsidy scheme in India goes by the name, PM Surya Ghar Muft Bijli Yojana. Under this scheme, homeowners can claim a subsidy between Rs. 30,000 and Rs. 78,000, depending upon the size of the on-grid rooftop solar system being installed. And are there any conditions for claiming this solar panel subsidy in India?

Absolutely!
