

Ground fault breaker for sale in Us

Overview

What is a ground fault circuit interrupter (GFCI)?

Ground fault circuit interrupters (GFCIs) are an effective means of preventing severe electrical shock or electrocution from ground faults.

What is a GFCI / GFI circuit breaker?

Shop our ground fault (GFCI / GFI) circuit breakers, or Residual Current Device (RCD), which offer GFCI protection by shutting off electric power when they sense an imbalance between the outgoing and incoming current.

What kind of circuit breakers does Lowe's sell?

At Lowe's, we offer circuit breakers from top brands, such as Eaton circuit breakers and Cutler-Hammer circuit breakers. You can also find other types of circuit protection devices. Look for specialized products, such as arc-fault circuit interrupters (AFCIs).

What are Eaton BR ground fault current interrupters?

Eaton's BR Ground Fault Current Interrupters (GFCIs) provide superior safety over a standard electrical outlet in areas where electricity may come into contact with water. GFCIs are required in any application near water such as kitchen countertops, bathrooms, swimming pools, hot tubs, and outdoor receptacles.
