

High-end inverter manufacturer in New York USA

Overview

Who makes power inverters?

EPC Power is the only manufacturer in North America producing grid-scale power inverters. A power inverter is a device that converts electricity between AC (Alternating Current) and DC (Direct Current). AC electricity is the type that powers our homes through power lines, while DC electricity is commonly supplied by batteries.

What are the top ranked power inverter companies in 2024?

As of June, 2024, the top-ranked power inverter companies are: Applied Power Systems, Inc., SPI Lasers, and Maruson Technology. A power inverter is a device that transforms input current into alternating current (AC).

Who makes the best solar inverter?

Known for their durable and reliable inverters made in the USA, OutBack Power is a premier choice for off-grid and battery-based solar systems. The company is based in Arlington, Washington and has been delivering advanced power solutions since 2001.

Who makes magnum power inverters?

A subsidiary of Sensata Technologies, Magnum Energy is a leading manufacturer of power inverters and inverter/chargers in the USA. Based in Everett, Washington, their products are known for their high-quality, reliability, and versatility.
