

High quality din rail breaker in Vancouver

Overview

What is a DIN rail circuit breaker?

A DIN rail circuit breaker is a type of circuit breaker designed for easy installation on a standard 35mm metal DIN rail. It mounts directly onto the front panel and snaps into place without requiring any external hardware.

What is a DIN rail-mount miniature circuit breaker?

DIN rail-mount miniature circuit breakers have low current ratings to protect low-power equipment from current overloads and short circuits. Also known as IEC miniature circuit breakers, modular DIN rail breakers, or dual-rated UL and IEC breakers, they mount on DIN rails to save space in panelboards and load centres.

What is an IEC miniature circuit breaker?

Also known as IEC miniature circuit breakers, modular DIN rail breakers, or dual-rated UL and IEC breakers, they mount on DIN rails to save space in panelboards and load centres. They're manually resettable after they trip and include a contact position indicator that shows when the circuit is on or off.

What size circuit breaker for Stab-Lok load centres?

This two-pole circuit breaker is for use with Stab-lok load centres. It measures 3.5 length x 2 width x 3.34 inches depth, with a maximum wire size of 2 AWG and a minimum wire size of 14 AWG. This 70-amp circuit breaker features a 120/240 VAC voltage rating, a 10K AIR rating, and a screw clamp connection.
