

# Home battery storage in China in Australia

## Overview

---

Which battery energy storage systems are most popular in Australia?

Analysis by solar and storage market consultancy SunWiz has identified the most popular brand of battery energy storage systems in the Australian market with Chinese manufacturers leading the way.

How many home battery systems are there in Australia?

Home battery systems surpassed 250,000 by the end of 2023, accounting for more than 2700 MW hours of capacity. While this number may seem high, around 3.7 million Australian homes have rooftop solar units installed, meaning less than one in 14 households with solar units have home battery systems installed.

What percentage of Australian batteries are made by Chinese manufacturers?

SunWiz said Chinese manufacturers account for more than 70% of the Australian battery sector with other companies left to tussle over less than a quarter of the market.

How do I choose the best home battery system in Australia?

It's crucial to choose a brand that has excellent service networks locally here in Australia so we can obtain assistance promptly if necessary. A detailed comparison of top home battery systems in Australia, including Tesla Powerwall 3, Sungrow, Sigenergy, BYD, and Enphase. Discover features, costs.
