

Honiara Solar Water Pump Retrofit

Overview

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

How does a solar water pump work?

A solar powered water pump operates by using solar panels to convert sunlight into electricity, which then powers the pump. This makes solar water pump more energy-efficient and environmentally friendly, unlike traditional pumps that heavily rely on grid electricity or fuel.

Why should you choose epump solar powered water pump?

This makes solar water pump more energy-efficient and environmentally friendly, unlike traditional pumps that heavily rely on grid electricity or fuel. Our ePumP solar powered water pump depends on sunlight intensity and is more suitable for sunny regions.

Does the Lewisa solar fountain pump work on rainy days?

The Lewisa Solar Fountain Pump comes with a battery backup, so it works even on rainy or cloudy days. It's suitable for your koi pond, garden or bird bath. The beautiful LED will make any garden special at night, giving it a beautiful and elegant look. Since it works regardless of the weather, there is no need to worry about the lack of sunshine.
