

# How many energy storage power stations are there in Moldova

## Overview

---

How much electricity does Moldova produce?

The country produces only about 20 percent of its annual electricity consumption from natural gas-fired combined heat and electricity power plants. Moldova has one hydropower plant, the Costesti Hydropower Plant. Moldavskaya GRES (MGRES) in the separatist region of Transnistria supplies the vast majority of the remaining 80 percent of electricity.

How has Moldova restructured its electricity distribution network?

As part of the reforms, Moldova restructured and partially privatized its electricity distribution network, including Premier Energy, a private company that controls 70 percent of the country's electric distribution grid.

Is biomass a source of electricity in Moldova?

Traditional biomass – the burning of charcoal, crop waste, and other organic matter – is not included. This can be an important source in lower-income settings. Moldova: How much of the country's electricity comes from nuclear power?

Nuclear power – alongside renewables – is a low-carbon source of electricity.

How many hydropower plants does Moldova have?

Moldova has one hydropower plant, the Costesti Hydropower Plant. Moldavskaya GRES (MGRES) in the separatist region of Transnistria supplies the vast majority of the remaining 80 percent of electricity. Moldova also imports electricity from Ukraine and Romania.
