

How many hydrogen energy stations are there in Abkhazia

Overview

How many hydrogen refuelling stations are there in Asia?

The first hydrogen refuelling stations in Bulgaria and Slovakia have been opened in their capitals. While many projects in Europe are still in the planning phase, the ratio of stations already in operation in East Asia continued to rise. At the end of 2024, 748 hydrogen refuelling stations were in operation in Asia, 384 of them in China.

How many hydrogen refuelling stations are there in 2024?

It might feel like the hydrogen conversation has been building for ages, but 2024 was a real turning point. According to the latest figures from LBST's H2stations.org report, the number of operational hydrogen refuelling stations worldwide has officially crossed the 1,000 mark.

How many hydrogen refuelling stations are there in Europe?

France was second in Europe with 65 refuelling stations, followed by the Netherlands with 25 and Switzerland with 19. The hydrogen network in North America is even less developed. In Canada, the world's second largest country by area, the number of refuelling stations for fuel cell vehicles increased by four to twelve last year.

Where can I find information on hydrogen refuelling stations?

LBST has operated the database h2stations.org since 2005, offering the most comprehensive information on hydrogen refuelling stations worldwide. Data is collected and updated continuously from multiple sources on a best effort basis.
