

How many industrial energy storage manufacturers are there in Papua New Guinea

Overview

What is the industrial sector in Papua New Guinea?

In 2012 the industrial sector in Papua New Guinea contributed approximately 44% to the country's total GDP, of which manufacturing played a relatively small role, contributing just 6% of the total GDP for the same year, with the biggest contribution to the industrial sector coming from mining and petroleum excavation.

Who regulates the electricity industry in PNG?

The electricity industry and power pricing is currently regulated by the Independent Consumer and Competition Commission (ICCC). PNG's National Energy Policy anticipates the eventual establishment of separate Energy Regulatory Commission. With the advent of the PNG LNG project in 2014, PNG began exporting LNG.

Who owns PNG Power Ltd?

State-owned PNG Power Ltd is the major power utility in PNG, with responsibility for power generation, transmission, distribution and retailing. It is one of a number of state-owned companies owned by the state-owned umbrella company, Kumul Consolidated Holdings.

How is PNG Power regulated?

PNG Power was established under the Electricity Commission (Privatisation) Act of 2002. It is regulated under the Electricity (Amendment) Act. PNG Power's revenues are insufficient to fund the planned expansion of the country's energy infrastructure.
