

# How many watts are the solar panels on Mobai

## Overview

---

Updated September 3, 2025: The sixth phase of the Mohammed bin Rashid Al Maktoum, the world's largest solar park has added one gigawatt. How many MW of solar power does Dubai have?

DUBAI, 9th June, 2025 (WAM) -- Saeed Mohammed Al Tayer, MD & CEO of Dubai Electricity and Water Authority (DEWA), announced that the total production capacity of the Mohammed bin Rashid Al Maktoum Solar Park has increased to 3,860 megawatts (MW), using photovoltaic (PV) solar panels and concentrated solar power (CSP) technologies.

Will 900MW solar park provide 100% of Dubai's power production capacity?

The inauguration of the 900MW fifth phase of the Mohammed bin Rashid Al Maktoum Solar Park supports the directives of HH Sheikh Mohammed bin Rashid Al Maktoum to provide 100% of Dubai's power production capacity from clean energy sources by 2050.

How many MW is a solar park?

In December 2023, the fourth phase of the solar park was inaugurated with a total capacity of 950MW, combining CSP and PV panels. It uses three hybrid technologies to produce clean energy: 600MW from a parabolic basin complex, 100MW from a solar power tower and 250MW from PV solar panels.

How much solar power is commissioned at the Solar Park?

The total capacity of the solar energy projects commissioned at the solar park has reached 2,427MW from photovoltaic solar panels and concentrated solar power (CSP). The entire site has a planned capacity of 5,000MW by 2030
