

# How much does a high-voltage photovoltaic container for a school cost

## Overview

---

Why are schools choosing solar energy?

Here are the top 3 reasons schools across the U.S. are choosing solar energy: A barrier for the residential solar market is that many homes don't have suitable roofs or location types for solar, making a PV installation less cost-effective.

Should schools install solar panels?

For schools considering installing solar panels, the reality is that any big educational institution will have major utility costs. Various analyses, such as our latest Marketplace Intel Report, revealed that larger solar systems earn more ROI. Thus, big entities like schools stand to save the most with solar.

How many schools have installed solar?

In addition to colleges and universities, 5,489 K-12 schools have installed solar in the U.S. to date, reaching several million students, according to the Solar Foundation's most recent solar schools report.

Do schools & universities save more with solar?

Various analyses, such as our latest Marketplace Intel Report, revealed that larger solar systems earn more ROI. Thus, big entities like schools stand to save the most with solar. How does the process work for schools and universities installing solar?
