Full Pricing Guide Tempered glass price in 2025 ranges between \$18 to \$30 per square foot, depending on the thickness, finish, shape, and customizations. On average, homeowners and professionals can expect the cost of tempered glass to start at around \$25/sq. ft., with large panels and specialized types (like low-iron or frosted) costing more.

How much does tempered glass cost?

A standard 4×8 tempered glass sheet (typically 1/2" thick) costs between \$400 and \$550, depending on finish and type. Use the Tempered Glass Price Calculator at Fab Glass and Mirror by entering your shape, size, thickness, edge type, and quantity to get a real-time quote including shipping.

How do I calculate the cost of glass?

Enter the length and width in centimeters. Select the thickness in millimeters. Choose the type of glass (Float, Tempered, or Laminated). Click the "Calculate" button to get the price. How It Works The calculator uses the following formula to determine the cost: The area is calculated as Length x Width in square centimeters.

What is tempered glass?

Tempered glass, commonly known as safety glass, is a type of toughened glass that undergoes thermal or chemical treatments to increase its strength. Unlike standard glass, when broken, it shatters into small blunt pieces, minimizing injury. Its durability and safety benefits make it ideal for:
