

How much does the Havana solar tile cost

Overview

How much does a solar roof tile system cost?

To give you an idea, the average 3.5 kW solar roof tile system will cost around £13,000, compared to approximately £7,000 for a regular PV system. However, remember that you are also getting a new roof with your solar tiles, so a direct price comparison is slightly misleading. Information last updated in April 2025.

Are solar roof tiles a viable alternative to traditional solar panels?

Solar roof tiles could be the answer if you're looking to utilise the sun's power and make use of a sustainable alternative for your energy needs. This article explores the costs, pros, and cons of solar roof tiles in 2025 and helps you understand how they differ from traditional solar panels.

What are solar roof tiles?

Just like solar panels, solar roof tiles convert sunlight into electricity, but they're made to look just like traditional roof tiles. Some models are actual roof tiles with integrated solar cells.

Are solar panels better than roof tiles?

Solar panels, that is solar panels on slate roofs, are still the better investment overall compared to solar roof tiles. Roof tiles are expensive because you are ultimately installing a new roof, and while they look great, they can be less efficient than solar panels.
