

# **How much is the total investment in Uzbekistan's energy storage project**

## Overview

---

With a planned total investment of \$140 million, the project covers an area of about six hectares (90 mu). Will Uzbekistan install 25 GW of renewables by 2030?

The project is core to Uzbekistan's ambition to install 25 GW of renewables by 2030. This project can power 170,000 households and the battery storage capacity is equivalent to 8,000 electric vehicles.”.

What is the energy sector like in Uzbekistan?

In Uzbekistan, the energy sector is concentrated in the hands of two monopolies, Uzbekenergo and Uzbekneftegaz, with mineral resources and rare-earth minerals concentrated at metallurgy plants, which the government intends to upgrade through a number of sponsored programmes, and with the active assistance of foreign contractors and suppliers.

How will Uzbekistan achieve a low-carbon economy?

It will further decrease Uzbekistan’s reliance on carbon-intensive thermal-power generation and will facilitate the country’s transition to a low-carbon economy, in line with the Global Renewables and Energy Efficiency Pledge launched at COP28.
