

How to make a good-looking battery cabinet base station

Overview

How to make a charging station in a kitchen?

Use a usual kitchen drawer to make a hidden charging station there. This small and comfy drawer is used to store and charge gadgets. If you like to sit on a bench and read something or scroll the feed, you can make a charging station right there. Using a desk drawer for charging is always a good idea as everything you need will be at hand.

How do I choose a charging station base?

Decide on the design of your charging station base. If using wood, acrylic, or plastic, cut out an appropriate section to house the charging module. The surface should be thin enough to allow effective power transfer, as thicker materials may reduce charging efficiency.

How do you make a charging station a good space?

Make an open charging station in your closet or even entryway and light it up. (via [edwardgeorgelondon](#)). Want a sleek and decluttered space?

Then hidden charging is your choice. A charging drawer is the most popular idea here but you will have to make sockets inside, and they should work.

Can you hide a charging station in a kitchen drawer?

Your kitchen drawers can become charging stations, and you can hide cables there, too. This sleek drawer is a lovely idea for charging, it can hold several devices. Make a simple tabletop charging station of a stained box that will fit most interiors. This charging station is hidden in the side of a cabinet, and it's a very cool idea.
