

# How to place the generator in the container

## Overview

---

What is container type diesel generator set?

Container type Diesel Generator Set Jet power supply container type generator set is design in accordance with ISO/TC104 standard size, rational construction, to make sure the generator set will not be damaged due to under high pressure in transport, and is suitable for ship transportation.

How do you install a generator in a building?

To install a generator in a building in Project Zomboid, follow these steps: Find a generator, bring it to the building, fill it with gas, read the 'How to use generators' magazine, right-click the generator and connect it, then turn it on. Do not place the generator inside the building as it will cause CO2 poisoning. Instead, place it just outside the walls of your build.

Do you need a container for a portable generator?

Whether you call it a box, shed, shelter, or enclosure, your generator needs to be protected and integrated into the environment around it. Here are some of the best reasons for building a container for your portable generator.

How do you build a generator enclosure?

Concrete: A slab of concrete (sometimes reinforced with steel rebar) is poured and cured before the generator is set atop it and the enclosure is built. Patio blocks: If you've got a level, cleared ground space, you can use patio blocks or pavers to provide a sturdy base.
