

Huawei East Asia New Energy Storage

Overview

Singapore, 13 May 2025 – Huawei International Pte. Ltd. (“Huawei”) and Keppel Ltd.’s Infrastructure Division (“Keppel”), have signed a non-binding Memorandum of Understanding (MOU) to collaborate on renewable energy solutions, focusing on photovoltaic (PV) systems and Battery Energy Storage System (BESS) technologies. Why is Huawei reshaping the future of Energy Innovation?

By leveraging Huawei's cutting-edge digital power technologies and Keppel's expertise in energy management, we are not only meeting the growing demand for renewable energy to support Singapore's global leading position in green development – we are reshaping the future of energy innovation.

How will Huawei & Keppel work together?

Through this partnership, we will harness Huawei's digital power technologies and Keppel's deep expertise in energy infrastructure to enhance the reliability and seamless integration of renewables with state-of-the-art energy storage.

What is Huawei digital power?

Huawei Digital Power will provide its next-generation Smart PV solutions, integrating advanced power electronics, and energy storage capabilities to maximize energy yield, operational reliability, and lifecycle cost savings.

Who is Huawei digital power & peak energy?

[Shanghai, China, June 11, 2025] Huawei Digital Power and Peak Energy, a leading Singapore-based Independent Power Producer (IPP), officially signed a Memorandum of Understanding (MoU) at SNEC 2025, forming a powerful alliance to fast-track the rollout of renewable energy solutions across the Asia-Pacific C&I sector.
