

Huawei Industrial Energy Storage Plan

Overview

What is Huawei C&I storage?

Huawei's C&I storage systems are certified for both low voltage and medium voltage grid connection and are redefining the ESS landscape, together with the LUNA2000 series and with Smart PCS LUNA2000-100KTL-M1 100 kW converter. Offering innovative battery management solutions, Huawei has placed emphasis on safety and performance optimization.

What makes Huawei a good battery management company?

Offering innovative battery management solutions, Huawei has placed emphasis on safety and performance optimization. Batteries are the heart of every storage system and are also subject to risks such as over- and under-discharge or over- and under-temperature.

How many machines can be installed in a Huawei C&I system?

These storage systems are very flexible, up to 5 machines can be installed in the same system, in this way there is scalability from approximately 97 to 970 kWh in steps of 30 kWh. The combination with string inverters from the Huawei C&I segment occurs naturally with a single supervision system.

What is energy storage system products list?

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.
