

Huawei Spain Barcelona solar container battery Pack Manufacturing

Overview

What is the storage system made by Huawei Luna 2000?

The storage system made by Huawei LUNA 2000 is available. The system can be modulated with lithium batteries from 5KWh to 15KWh. High-voltage lithium iron phosphate (LFP) batteries have a very stable and resistant chemical structure. This technology allows optimization of the energy level of the battery pack.

How does the Huawei Luna battery pack work?

This technology allows optimization of the energy level of the battery pack. Huawei Luna consists of the Power Module, the electronic component and 5 kWh battery packs. The modular design allows to expand the storage capacity from 5 kWh up to 15 kWh with the possibility of stacking up to 3 battery packs (of 5 kWh each) for each system.

What is Huawei luna2000 battery & BMS?

Maximize your energy with the Huawei LUNA2000 15kWh Lithium Battery + BMS. It offers high efficiency and reliability for your energy needs.

What are Huawei's intelligent lithium battery solutions?

Huawei's intelligent lithium battery solutions provide dynamic peak shifting, transforming traditional backup power systems into efficient energy storage solutions that enhance system flexibility and reliability.
