

# **Huawei West Asia Battery Energy Storage**

## Overview

---

Huawei and Keppel have signed a Memorandum of Understanding (MoU) to develop solar and battery energy storage system (BESS) projects for the data center and other high-energy-consuming sectors, initially focusing on the ASEAN region. What is Huawei battery energy storage system?

This is where Huawei BESS (Battery Energy Storage System) becomes a game-changer. Designed for commercial and utility-scale applications, this innovative solution addresses the core pain points of modern energy management. Why Choose Huawei's Battery Energy Storage System?

.

What are Huawei's intelligent lithium battery solutions?

Huawei's intelligent lithium battery solutions provide dynamic peak shifting, transforming traditional backup power systems into efficient energy storage solutions that enhance system flexibility and reliability.

Why is Huawei reshaping the future of Energy Innovation?

By leveraging Huawei's cutting-edge digital power technologies and Keppel's expertise in energy management, we are not only meeting the growing demand for renewable energy to support Singapore's global leading position in green development - we are reshaping the future of energy innovation.

How will Huawei & Keppel work together?

Through this partnership, we will harness Huawei's digital power technologies and Keppel's deep expertise in energy infrastructure to enhance the reliability and seamless integration of renewables with state-of-the-art energy storage.
