

# **Huawei high-quality solar container battery**

## Overview

---

The Huawei LUNA2000-2.0MWH-2H1 is a turnkey, containerised energy storage system with  $\approx 2,032$  kWh (2.03 MWh) nominal capacity and a continuous rated power of 1,016 kW ( $\approx 1.016$  MW) — designed for long-duration (2 h) applications, grid support and commercial/utility installations. What is Huawei 4.5mwh-2h1 storage container?

In the utility segment, the successful 2.0 MWh storage container has been systematically developed into the new Huawei 4.5MWh-2H1 storage container. The massive capacity enables flexible grid services, time-shifting of feed-in and hybrid power plant operation.

What is Huawei fusion solar?

Huawei FusionSolar offers scalable storage solutions across all segments: from the new LUNA2000-S1 for residential buildings to the powerful LUNA2000-215-2S10 for C&I applications and the 4.5MWh-2H1 large-scale storage system for utility projects. The systems are based on safe LFP technology and can be seamlessly integrated into PV systems.

What is the storage system made by Huawei Luna 2000?

The storage system made by Huawei LUNA 2000 is available. The system can be modulated with lithium batteries from 5KWh to 15KWh. High-voltage lithium iron phosphate (LFP) batteries have a very stable and resistant chemical structure. This technology allows optimization of the energy level of the battery pack.

How many kWh can a Huawei smart backup box hold?

With options of 5 kWh, 10 kWh or 15 kWh and extensions up to 30 kWh, it adapts to your requirements. The system is safe, reliable and easy to install, perfect for single and three-phase inverters. The wall mount for the storage can be purchased separately. The Huawei Smart Backup Box secures your power supply in the event of a power failure.
