

Huawei installs solar panels in Australia

Overview

Chinese giant Huawei has entered Australia's residential solar battery market with its home energy storage system, the Luna2000. Do Huawei iStore solar inverters work in Australia?

The iStore solar inverters (and batteries) operate like the Huawei versions and also look just like them too. That's because Huawei make inverters for the Australian market for iStore; and inverter data is securely stored locally in Australia, not in China.

Does iStore sell Huawei solar products in Australia?

Under an OEM agreement with Huawei, iStore are now exclusively distributing Huawei residential solar products in Australia. iStore are a wholesaler, not retailer/installer. However, they are a lot more than just a typical solar wholesaler. They are responsible for getting the Huawei products approved by the Clean Energy Council as iStore products.

Do Huawei solar inverters have warranty?

That's because Huawei make inverters for the Australian market for iStore; and inverter data is securely stored locally in Australia, not in China. As I consider iStore to be a reliable company, you shouldn't have any issues with the warranties for these new products. Huawei solar inverters have 10 year warranties.

What are Huawei solar inverters?

Huawei's inverters are known for their innovative features, including smart optimizers, remote monitoring, and high-efficiency ratings. These inverters help maximize the energy output of solar panels, ensuring homeowners get the most value from their investment in solar power.
