

Huawei solar industry battery components

Overview

Does Huawei have a sulfide battery?

Huawei has intensified its ambitions in advanced energy storage by patenting a sulfide-based solid-state battery capable of achieving driving ranges of up to 3,000 kilometres and ultra-fast charging in just five minutes.

Does Huawei make power batteries?

Although Huawei does not manufacture power batteries directly, its growing interest in upstream battery materials is notable. Earlier in 2025, the company submitted another patent focused on synthesizing sulfide electrolytes—a vital component known for its high conductivity but also high costs, sometimes exceeding the price of gold.

Why is Huawei pursuing solid-state battery research?

Huawei's engagement in solid-state battery research reflects a wider trend among Chinese technology and automotive companies. Although Huawei does not manufacture power batteries directly, its growing interest in upstream battery materials is notable.

What services does Huawei offer for solar business owners?

We offer extended services for solar business owners, including technical support, device maintenance, and spare parts replacement. Join Huawei's Smart PV Community as an installer for tailored support, resources, online courses, redeemable points, training, and collaboration opportunities to enhance your services and customer satisfaction.
