

Indian inverter for sale

Overview

What is an inverter in India?

An inverter is a device which converts DC current into AC current and it is made of different electronics devices, such as transformer, PCB, LED / Digital display, power cables, cabinet, and fuse. The price of an inverter in India can vary depending on the size, brand, and features.

Are inverters a good investment for homes in India?

Inverters are used in homes in India to provide backup power during power outages. They can also be used to run appliances that require AC power, such as refrigerators, air conditioners, and televisions. Inverters are a valuable investment for homes in India, hence it is important to research well before buying.

How much does a solar inverter cost in India?

The price of an inverter in India can vary depending on the size, brand, and features. In general, inverters can cost in between Rs. 5,000 and Rs. 50,000 in India. There are two main types of solar inverters: grid-tied inverters and off-grid inverters. Grid-tied inverters are more expensive than off-grid inverters.
