

Indonesia Glass solar Project

Overview

Why is Indonesia launching a new PV glass project?

The projects, which are designed to meet the growing demand for PV glass in the overseas market, will be launched by Indonesia Flat Photovoltaic Co., Ltd, a wholly owned subsidiary of Flat Glass Group. The new investment is expected to expand its PV glass production capacity, especially in Indonesia, to reduce costs.

Why is PV glass made in Indonesia?

As an offtaker of our PV-Glass-Grade Silica, the factory ensure a stable offtake and a secure supply chain for the silica refinery. Coupled with other raw materials like soda ash, alumina, limestone, and other coming from local sources, the resulting PV Glass contains almost 100% local content - eligible to earn the Made in Indonesia title.

What is flat glass doing in Indonesia?

Illustration by Flat. Flat Glass Group plans \$290M investment for 2 solar glass facilities in Central Java, Indonesia. With a daily melting capacity of 1,600 tons each, these plants, established through the Indonesian subsidiary, focus on glass and processing production lines.

Will new solar glass facilities reduce Indonesia's reliance on imported glass?

The new facilities will help to reduce Indonesia's reliance on imported solar glass. Illustration by Flat. Flat Glass Group plans \$290M investment for 2 solar glass facilities in Central Java, Indonesia.
