

Indonesia now has 5g solar container communication stations

Overview

How Indonesia is accelerating 5G expansion?

Indonesia is accelerating 5G expansion nationwide through spectrum optimisation, satellite technology and strategic partnerships to bridge the digital divide and boost digital transformation across the archipelago.

Does Indonesia have a 5G network?

Since its rollout in 2021, Indonesia currently ranks 9th out of 10 ASEAN countries in mobile and fixed broadband performance. The country's 5G spectrum utilisation remains limited to 1.8GHz/2.1GHz/2.3GHz while cellular operators are waiting for the government to release additional spectrums in the 700MHz, 2.6GHz, and 3.5GHz bands.

Will Japan support Indonesia's 5G network development?

Similarly, Indonesia and Russia agreed to enhance collaboration in digital technology and 5G network development, while Japan expressed interest in supporting Indonesia's 5G efforts through Open Radio Access Network (Open RAN) technologies.

Which telco has completed a large core network consolidation project in Jakarta?

[Jakarta, Indonesia, August 30, 2024] Indosat Ooredoo Hutchison (Indosat or IOH), one of Indonesia's leading telcos, in cooperation with global ICT solution provider Huawei, has finalized a large core network consolidation project in Jakarta.
