

Indonesian rooftop solar panels

Overview

Is rooftop solar legal in Indonesia?

By understanding these licensing differences, building owners can install rooftop solar legally, in compliance with regulations, and maximize the benefits of solar energy. Minister of Energy and Mineral Resources (ESDM) Regulation No. 2/2024 sets new rules for rooftop solar power (PLTS Atap) in Indonesia.

How many MW of rooftop solar will Indonesia deploy in 2024?

The Ministry of Energy and Mineral Resources in Indonesia has set a quota of 5,746 MW of rooftop solar to be deployed between 2024 and 2028.

Does Indonesia have a quota for rooftop solar?

Indonesia 's Ministry of Energy and Mineral Resources (EMR) has set a quota for the development of rooftop solar by state-owned electric utility Perusahaan Listrik Negara (PLN) through 2028. The distribution of rooftop solar quotas in Indonesia is based on the electric power system. Between 2024 and 2028, a quota of 5,746 MW has been set.

Why is Indonesia regulating rooftop solar systems?

Indonesia has attempted to regulate the development and operation of Rooftop Solar Systems since 2018 to provide a framework to balance the interests of consumers and investors as well as manage potential impact on the grid and allow for some level of control and oversight of the national utility, PLN.
