

Is the inverter kit good

Overview

Do you need a solar inverter?

Solar inverters are a necessary but often forgotten part of a home solar panel system since they convert sunlight into usable electricity for your home appliances. Without a solar inverter, you wouldn't be able to use those solar panels to power your home.

Which solar inverter is best?

CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025. It was the most efficient inverter we looked at, letting you use a larger percentage of the energy your solar panels generate. This translates to less and more power to use around the house.

Which Inverter should you choose?

Based on varied needs, you can choose from a wide range of brands ranging from medium to high-end models. These include Luminous, RAPID POWER, Microtek, EXIDE, Eastman, V Guard, Maxine, Amaron, DAYSTAR SOLAR, UTL, SF SONIC, and much more. With several inverter price points available, you can choose one that suits your requirement.

Which solar inverter should I buy in 2025?

Every solar system needs some kind of inverter to convert sunlight into usable electricity. CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025.
