

Jakarta Small Solar Water Pump Manufacturer

Overview

Who makes solar water pumps?

WBS began producing water pumps in 1998. In 2008, we independently developed and produced solar water pumps. We have OEM production for more than 200 solar pump dealers around the world. Over the past 10 years, we have produced more than 150,000 sets of solar water pumps that have been exported to other parts of the world.

What is a solar water pump?

A solar water pump is a mechanical pump powered by electricity generated using photovoltaic panels. It is popularly referred to as a solar water pumping system because it requires several key components to work. The critical constituents of a functional water pump include;

Does Indonesia have a solar market?

Unfortunately, Indonesia's solar market has not lived up to its exponential potential. The nation's solar capacity stood at approximately 11.5% of the total energy production and supply at the end of 2020. Even though Indonesia's solar market outlook is pretty bleak, there is hope for the future.
