

Latest on Burundi energy storage projects

Overview

How much electricity will Songa energy supply in Burundi?

They will supply over 62 GWh of clean, baseload electricity to the national grid annually. Songa Energy is part of Anzana Electric Group's broader portfolio in Burundi. This includes Weza Power – an electricity distribution utility that aims to connect over two thirds of the population (around 9 million people) over the next 7 years.

What does Songa energy do in Burundi?

The projects have been developed under Burundi's public-private-partnership framework, and the national government has provided strong support throughout the process. They will supply over 62 GWh of clean, baseload electricity to the national grid annually. Songa Energy is part of Anzana Electric Group's broader portfolio in Burundi.

How will a new energy project boost the country's energy generation capacity?

The financing will support the construction of the 1.65MW Upper Ruvyironza project and the 9MW Upper Mulembwe project – together, they will boost the country's energy generation capacity by around 10% and will start supplying the national grid in 2025 and 2027 respectively.
