

Latest transaction price of energy storage cabinets in Mexico

Overview

Will energy storage attract renewables investment in Mexico?

With Mexico's president-elect having announced an intent to attract renewables investment, energy storage was the subject of much discussion at the Intersolar Mexico trade show.

How can industry integrate energy storage into the Mexican energy mix?

To integrate energy storage effectively into the Mexican energy mix, industry must lead the way in promoting links between academia, itself, government, and wider society to promote viable, scalable solutions.

Will Mexico generate 54% of its electricity from renewables?

President-elect Claudia Sheinbaum Pardo has already announced a national energy plan focused on driving renewables investment, expanding electromobility, and modernizing ageing grid infrastructure with the aim of Mexico generating 54% of its electricity from renewables, up from 12.1% today.

How much energy will Mexico need to avoid grid distortion?

The rewards would be huge as it has been estimated Mexico will require 2.3 GW of new energy storage projects through 2034, to avoid grid distortion.
