

Lead-acid battery cabinet 25A

Overview

What is outdoor lead acid battery cabinet?

Outdoor Lead Acid Battery Cabinet mainly provides a stable working temperature and dust-free environment for lead acid battery, they are integrated with thermal insulation and equipped with air conditioner of different refrigerating capacity.

What is a VRLA battery cabinet?

They are designed to accommodate standard Valve Regulated Lead Acid (VRLA) batteries with a capacity range of 24Ah to 105Ah (C10). The battery cabinets are available in five different mechanical dimensions.

How many batteries can a battery cabinet support?

The battery cabinets are available in five different mechanical dimensions. They can facilitate multiple combinations of batteries, up to 63 battery blocks, connected in series and parallel configurations with positive, negative, and mid-point poles. The battery cabinets also support a maximum Direct Current (DC) voltage of 800Vdc.

What is an outdoor battery cabinet with air conditioner?

AZE's outdoor battery cabinets with air conditioners are ideal for applications where your expensive and sensitive network equipment is exposed environmental factors such as dust and water, they are well suited for power equipment, batteries, telecom gear, all integrated into a robust, economical package.
