

Low frequency off-grid 48V 6kxw inverter

Overview

What is a 6kW hybrid solar inverter?

This 6kW Hybrid all-in-one, off grid, 48V DC input, 120V/240VAC output inverter is a combination of 145V 80A MPPT solar charge controller, low frequency inverter and AC transfer switch. View the Inverter User Manual [Here](#) with mechanical drawings, features, and performance information!.

What is a 40kW inverter for off-grid use?

The 40kW inverter for off-grid use features high-quality pure sine wave AC output and a 3 phase 4 wire connection. It has a no battery design, a wide DC input voltage range, an LCD display, and converts DC power to AC power in solar power systems.

Are genetry solar inverters white-labeled?

Genetry Solar inverters are completely designed in-house by Genetry Solar in the U.S.A.; they are not “white-labeled” (rebranded) products designed by a different company. This means that we are able to provide literally unparalleled technical support, not to mention providing features not found anywhere else in the low-frequency inverter market.

Does genetry solar inverter switch from 240V to 120V?

This is a highly valuable feature for RV customers who may go from a 240v shore connection one day to Grandma’s 120v extension cord the next day! No external hardware is required: a split-phase output Genetry Solar inverter will automatically switch between 120v input or 240v input as needed!
