

# **Low-pressure solar-powered containerized drilling site**

## Overview

---

Why do you need a solar container?

Deploy power in hours Perfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.

Are solar-powered small-scale brackish water desalination units feasible?

The feasibility of solar-powered small-scale brackish water desalination units in a coastal aquifer prone to saltwater intrusion: a comparison between electrodialysis reversal and reverse osmosis. *J. Environ. Manage.* 290, 112604 (2021).

Is groundwater desalination an underutilized resource?

*Nature Water* 2, 1019–1027 (2024) Cite this article Renewable powered, brackish groundwater desalination is an underutilized resource in the developing world, where there are unreliable energy sources and reliance on increasingly saline groundwater.
