

Luxembourg Government Energy Storage Planning Scheme

Overview

What is Luxembourg's Energy Policy?

Luxembourg's energy policy aims to respond to climate and environmental challenges and to guarantee the country's security of supply. Luxembourg complies with the climate ambition set by the international community through the Paris Agreement.

Does Luxembourg have a climate bank?

climate bank that offers reduced-interest loans for energy renovation. In order to lend fresh impetus to energy efficiency, in 2015 Luxembourg introduced a mechanism obliging natural gas and electricity suppliers to make concrete energy savings each year.

How can Luxembourg achieve zero emissions by 2050?

In order to achieve this objective, it is imperative to aim for and reach the zero emissions objectives by 2050 and the transition to 100% renewable energy. The Integrated National Energy and Climate Plan (NECP) (Plan national intégré en matière d'énergie et de climat) provides the basis for Luxembourg's climate and energy policy.

How secure is gas supply in Luxembourg?

Is carrying out risk assessments to ensure the security of gas supply. Current analyses indicate that although the security of supply in Luxembourg is highly dependent on neighbouring countries, having neither its own mining operations nor extensive storage capacities, it will be possible to manage disruptions
