

# Macedonia Solar Fan

## Overview

---

Is North Macedonia a burgeoning market for solar energy production?

This shift underscores North Macedonia's potential as a burgeoning market for solar energy production, particularly as the country aims to meet its ambitious renewable energy targets. The regulatory landscape for renewable energy in North Macedonia has been markedly transformed with recent changes adopted in April 2023.

Does Macedonia have a solar energy plan?

Historically, the country's journey toward solar energy began with the National Energy and Climate Plan (NECP) established in 2022, which set clear targets for renewable energy consumption. Macedonia - new player in solar industry.

Is Macedonia a new player in solar industry?

Macedonia - new player in solar industry. A pivotal moment occurred in 2020 with the launch of the first significant solar plant, and by 2023, North Macedonia had experienced a 251% increase in solar capacity, demonstrating the effectiveness of government initiatives in fostering growth in the sector.

What is happening in North Macedonia's solar energy landscape?

A significant turning point in North Macedonia's solar energy landscape occurred in December 2020 with the launch of the first 1.48 MW solar plant by EVN Macedonia in Voshanci. This project utilized innovative two-sided panels that enhance electricity production through reflection.
