

# Magadan Energy Storage Power Plant

## Overview

---

What is Magadan diesel thermal power plant?

The Magadan Diesel Thermal Power Plant is 250MW oil fired power project. It is planned in Magadan, Russia. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the announced stage. It will be developed in a single phase.

What is the peak capacity of Magadan thermal power station?

Magadan Thermal Power Station has a peak capacity of 96.0 MW which is generated by Coal. The current owner and operator of the Magadan Thermal Power Station facility is PJSC "Magadanenergo". Generated Gigawatt Hours (2013-2019).

Which country is planning a power plant in 2025?

It is planned in Magadan, Russia. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the announced stage. It will be developed in a single phase. The project construction is likely to commence in 2025 and is expected to enter into commercial operation in 2026.

## Magadan Energy Storage Power Plant
