

# **Maldives Folding Container for Construction Site Use 250kW**

## Overview

---

What is a construction site container?

Herocont offers turnkey solutions for modular and prefabricated buildings, such as furniture and industrial kitchen equipment! Construction site container or construction container is a modular container, resistant to harsh conditions in various construction sites.

Can Ela container deliver a building site container?

ELA Container can deliver the necessary building site containers straight to your construction site at short notice with its own vehicle fleet, including assembly and handover only when they are ready for use. Are you interested in renting or buying a building site container?

We're happy to help!.

Who invented the building site container?

The company's founder Bernhard Albers is considered the 'inventor' of the building site container. His passion for construction sites is deeply rooted at ELA Container and ELA building site containers have been impressing customers for decades.

What are the dimensions of a construction container?

Construction container may have standard dimensions of 2.40×6.00m or 3.00×7.00m, depending on the conditions in the project area where the construction takes place. However, we also produce larger sizes and combined containers as needed. At the same time, we produce containers for efficiency-comfort of workforce on construction site.
