

Malta Mobile Energy Storage Site Inverter

Overview

What is Malta's long-duration energy storage system?

Malta's utility-scale, long-duration energy storage system uses steam-based heat pump technology to deliver dispatchable, cost-effective energy. Malta's long-duration energy storage solution is already being deployed. Hear directly from the voices working alongside us to advance reliable, sustainable energy solutions.

What are the new grant schemes for solar energy in Malta?

The government of Malta launched six new grant schemes to incentivise the production, storage and use of renewable energy as part of the €9 million investment. The aid for solar energy will accommodate households with already existing systems to utilise battery powered systems and help new families setup the installation of new solar panel systems.
