

Mechanical Emergency Communication Command Base Station

Overview

What is a Mobile Emergency Response Center (MERC)?

Communicate in Times of Crisis with our Mobile Emergency Response Centers (MERC). Mobile command centers provide power and communication solutions for emergency response and business continuity. We provide both new units and renovations for existing command vehicles.

What is a key feature of a mobile command center's base?

Every mobile command center stands on a robust foundation, either a heavy-duty commercial chassis or a custom trailer platform. This base choice guarantees strength and versatility, key for diverse operational environments.

What is a portable emergency response center?

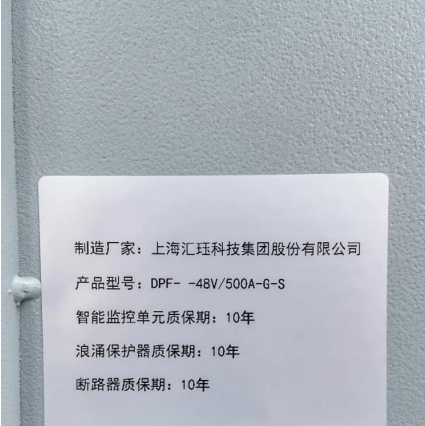

The Portable Emergency Response Center is a small tactical mobile communication network that can be easily transported and deployed anywhere in the world with satellite access. Mobile hot spot with dual sim LTE connectivity including FirstNet Band 14. Internal POE switch providing 4 POE ports for cameras, computers, and hosted VoIP phones.

What is a mobile command center?

Our Mobile Command Centers, also known as Mobile Emergency Response Centers (MERC™), are deployed in countries around the world. Our clients range from the private sector to local, state and federal governments. We are trusted by some of the largest organizations in the world, because of our extensive experience in telecommunications technology.
