

Moldova solar glass greenhouse manufacturer

Overview

The CofealM company started its activity in 2010 and specializes in the production of greenhouses, sheds and other structures for farmers, being the only manufacturer of its kind in Moldova. What is a glass greenhouse?

A glass greenhouse is a type of greenhouse made primarily of glass. It is suitable for various applications, including 8 m, 9.3 m, and 9.6 m tunnels, which are benchmarks for gardening, greenhouses, horticulture, and nurseries due to their substantial production capabilities.

How big is the greenhouse horticulture market?

The blooming greenhouse horticulture market is expected to reach \$50 billion by 2028. At the same time, energy costs, grid constraints and public policy are fueling growth in on-site solar generation. Ready to go green and grow more with Heliene's agrivoltaic modules?

.

What are Venlo greenhouses?

Venlo greenhouses are structures, designed and engineered in Europe and North America, capable of withstanding extreme climate conditions with long term protection. They effectively reduce the impact of greenhouse condensation on crops.

What types of glass can be used on a greenhouse?

Greenhouses can be covered with 60, 72, or 80 cm wide sheets of glass. Figured glass or transparent float glass, normal or tempered, can be used for mounting on greenhouses.
