

Namibia s green solar container communication station

Overview

Who is cleanergy solutions Namibia?

Cleanergy Solutions Namibia kicks off construction works for Africa's first public refuelling station with onsite green hydrogen production.

Where is Africa's first green hydrogen refuelling station located?

28 September 2023 – Today, Cleanergy Solutions Namibia, a joint venture between the Ohlthaver & List (O&L) Group and CMB.TECH, announces a premiere: the bricklaying of Africa's first public green hydrogen refuelling station. The hydrogen production plant established in Walvis Bay, Namibia, uses solar energy for hydrogen production onsite.

Is Namibia a good choice for green hydrogen production?

Namibia, a stable country, presents a promising emerging market opportunity for green hydrogen, fully supported by the government. Benefiting from some of the world's finest solar resources, Namibia's abundant sunshine makes it an optimal choice for green hydrogen production.
