

# **Netherlands small UPS uninterruptible power supply**

## Overview

---

What is a ups & how does it work?

UPS stands for Uninterruptible Power Supply. A UPS is a device that immediately takes over the power supply in the event of a power failure and supplies it to the connected systems. UPS stands for 'Uninterruptible Power Supply', translating to 'uninterrupted power supply'. UPS systems are also referred to as no-break or emergency power supplies.

What is an uninterruptible power supply?

An uninterruptible power supply, commonly known as "UPS Power Supply" is a device that is designed to supply power to your computers, servers and data centres in case of main power failure, electrical surge or unexpected power cut off.
