

# **New Delhi Outdoor Communication Power Supply BESS Equipment Company**

## Overview

---

What does Bess stand for?

AmpereHour Energy, a comprehensive energy storage solutions provider, in collaboration with Indigrid, has commissioned a 20 MW/40 MWh standalone battery energy storage system (BESS) for BSES Rajdhani Power Ltd (BRPL) at the Kilokari Substation in Delhi.

What is a Bess & how does it work?

The BESS helps replace fossil fuel-based power generation during peak hours with renewable energy from solar or wind by providing four hours of continuous backup power every day, two of which are during afternoon peaks and two of which are at night.

When will BRPL's 20 mw/40 MWh Bess be installed?

“The 20 MW/40 MWh BESS was delivered on a turnkey basis under a long-term battery energy storage capacity agreement (BESPA) with BRPL. Installed and commissioned in just 11 months, ahead of schedule, the system became operational in April 2025.

What is BSES Rajdhani power project?

The Delhi Electricity Regulatory Commission (DERC) issued regulatory approval to a 20 MW/ 40 MWh BESS at the 33/11 kV Kilokari sub-station belonging to BSES Rajdhani Power Ltd, the largest power distribution company in Delhi with close to 30 lakh consumers. The project will enable 24/7 power for over 12,000 low-income consumers.
