

New Delhi s new solar container outdoor power

Overview

How can consumers adopt solar energy in Delhi?

Consumers in Delhi facing capital constraints can access models under the Renewable Energy Service Company (RESCO) mode to adopt solar energy. One such model is the conventional RESCO model, where consumers enter into a power purchase agreement (PPA) with a solar developer/installer for a fixed period, typically 25 years.

How much solar power will Delhi have by 2027?

The Delhi government has announced plans to install 4,500 MW of solar capacity, including 750 MW of rooftop solar within the state and around 3,750 MW of utility-scale solar outside the state by 2027 under the new Solar Energy Policy 2023.

Are there alternative options for solar energy in Delhi?

According to the latest guidelines issued by the Delhi Electricity Regulatory Commission (DERC), they would now have alternative options to access solar energy. Under the new regulations, consumers with limited rooftop space can opt for group net metering and community solar models.

What is solar energy policy in Delhi?

This policy will apply to any solar energy generating system with a capacity of 1 kWp or more. It applies to all electricity consumers and entities that set up or operate solar power projects in Delhi.
