

# New Energy Inverter AC

## Overview

---

What kind of inverter is afore new energy?

Afore New Energy is a supplier of hybrid solar inverters and hybrid storage inverters, with a product range from 1kW to 9kW. They offer intelligent monitoring and energy storage systems, as well as photovoltaic grid-connected inverters.

Which microinverter is compatible with new era of 500W+ solar?

Huayu's 'HY 2000 Plus' microinverter compatible with new era of 500W+ solar p. Huayu (Ningbo) New Energy Technologies Co., Ltd: Huayu New Energy is a global leader in the design and manufacture of solar energy storage systems with hybrid inverter, AC-coupled inverter, off-grid inverter and lithium battery for home owners.

What types of inverters are available?

We provide single and three-phase high-efficiency PV string inverters for a capacity of 1kW to 110kW, storage inverters (single phase 1-12kW, three phase 3-60kW, split phase 3-9.6kW, AC coupled), energy storage battery series (low voltage wall mounted series, high voltage stackable series) and all-in-one storage products.

What is energy storage inverter?

Energy storage inverter can integrate renewable energy sources by transferring energy to periods of high demand, or provide grid services such as frequency control or rotating backup. Energy storage inverters can also be used in the form of thermal and cooling energy or as a synthetic fuel, for example for transport.
