

New Zealand Auckland 10kw off-grid solar inverter

Overview

What is a Sungrow HV hybrid inverter?

SUNGROW 10kW Single-Phase HV Hybrid Inverter (SH10RS) The Sungrow 10kW HV Hybrid Inverter (SH10RS) is a powerful and versatile solution for both new and retrofit solar installations. It includes the DC Protection Cover and 2x100A CTs, ensuring reliable and efficient energy management.

What is a grid tied solar system?

Grid Tied Solar. A grid tied (or grid tie) system consists of a standard string inverter that does not have the capability to connect battery storage. They are becoming less popular nowadays because of this limitation. It may be worth considering if you are constrained by your budget and you do not intend to ever add battery storage.

Are solar systems cheaper in New Zealand?

All you need to do is reach out to us. Since the end of 2024, the pricing of solar systems in New Zealand for grid-tied, commercial and off-grid solar has generally decreased. This is the result of lower costs of components from manufacturers and a more competitive market in New Zealand.

What is the average solar system in New Zealand?

The 'average' residential solar system in New Zealand is about 5kW of solar generation. Is a 10kW solar system appropriate for your situation?

Why not 6kW?
