

North America 3kw wind power generation system

Overview

What is the SD3 small 3KW wind turbine used for?

The SD3 small 3kW wind turbine is ideally suited for remote access sites, small domestic properties, telecoms, off-grid applications, light industrial and farming energy needs.

What is the North America wind power market size?

Image © Mordor Intelligence. Reuse requires attribution under CC BY 4.0. The North America Wind Power Market size is estimated at 186.65 gigawatt in 2025, and is expected to reach 243.65 gigawatt by 2030, at a CAGR of 5.47% during the forecast period (2025-2030).

What is a wind turbine generator?

An advanced wind turbine generator that took years to develop and test. Light weight, high powered, and encased in a rugged housing for long life. All of our wind turbines can be installed on-grid or off-grid. For an on-grid connection we use Inverters specifically matched to our wind turbine controller.

How many SD3 wind turbines are there in the Falkland Islands?

There have been over 100 of our SD3 wind turbines operating in The Falkland Islands since 1992. Taking advantage of the strong winds, the turbine blades pitch and cone to ensure a high output even in the fiercest storms.
