

# **North American Power Plant Energy Storage Project**

## Overview

---

How much energy does Enel North America have?

Its installed portfolio includes over 10.3 GW of utility-scale renewable capacity, 1.3 GW of utility-scale energy storage and 106.9 MW of distributed energy storage capacity, 4.9 GW of demand response capacity, and 193,000 electric vehicle charging ports. Visit [enelnorthamerica.com](https://enelnorthamerica.com) and on LinkedIn, X, Facebook, and YouTube to learn more.

Why is Enel delivering the Stampede project?

“America needs more low-cost clean power, and Enel is delivering it,” said Stephen Pike, head of Enel North America’s renewable energy business, Enel Green Power North America. “The Stampede project will add more power generation to the grid at a time when demand is rising from electrification and data centers.

Where can I find more information about Enel North America?

Visit [enelnorthamerica.com](https://enelnorthamerica.com) and on LinkedIn, X, Facebook, and YouTube to learn more. Enel North America secured a tax equity investment from Nestlé that enabled the completion of the Stampede solar-plus-storage project in Texas.
